PROFESSIONAL EXPERIENCE

Account Handler (Team Leader) — Airbus

Dubai, UAE | 2025 – Present

- Managed aviation inventory using SAP WMS, ensuring accurate binning, stock visibility, and timely issuance of materials for operational tasks.
- Supported maintenance readiness by coordinating the movement of tools, consumables, and components across operational locations.
- Prepared and audited international trade documents, achieving 100% customs compliance and minimizing clearance delays across global trade workflows.
- Conducted daily warehouse inspections and led briefings to reinforce workflow efficiency, safety standards, and SOP adherence — maintaining a zero-incident safety record.
- Delivered proactive resolution of inventory discrepancies and logistical issues, improving operational continuity and client satisfaction.
- Developed monthly KPI reports and SQCDP dashboards to track stock performance, turnaround times, and service quality; presented performance metrics directly to senior client stakeholders.
- Conducted periodic inventory counts to sustain high stock accuracy and alignment with global inventory standards.

- Analyzed and posted inventory variances, raising claims with the Global Team and flagging discrepancies for corrective action.
- Verified documentation and processed lease tool bookings into inventory in compliance with internal and regulatory requirements.
- Executed shipment reversal processes for cancelled orders, maintaining accurate stock and transaction records.
- Performed inbound and outbound QC inspections, validating Airworthiness Certificates in line with EASA and supplier requirements to prevent customer rejections.
- Investigated customer claims, assessed validity, and provided detailed findings and recommendations to management for resolution.

Key Achievements

- Introduced SOP-aligned work instructions that reduced process delays and improved customer satisfaction.
- Implemented new workflow charts that significantly reduced inventory adjustment errors.
- Established new dispatch locations across the UAE, reducing average lead time for time-critical aerospace components.
- Executed QC processes aligned with EASA and supplier requirements, eliminating export dispatch errors.
- Received an Airbus Certificate of Appreciation in recognition of outstanding dedication, continuous support, and commitment to operational excellence.
